Introduction

Born on 8th of August in Kranj, Slovenia. Attended elementary school in my home town of Škofja Loka and after that high school in Kranj, where I graduated in 2007.

The field of IT has been my interest for many years now. I find the advancement done and the possibilities that exist very intriguing and I can see myself as a part of that interesting spectre.

In my spare time I like to spend as much time as possible in the nature. I am very fond of climbing and any sorts of activates in the mountains (mountaineering, climbing, skiing, running, etc.). I like sports and to me it represents the means to unwind and to motivate myself.

In the future I see myself as a part of a successful, innovative and fulfilling work environment in IT industry or as closely connected to it. My main goal in life is to gather as much knowledge as possible and use that knowledge for personal and professional purposes.

My international experience at, both, academic and professional level give me the confidence and knowledge to tackle any problem given. I am always willing and prepared to learn.

Education

- Undergraduate level: Management of Information systems, University of Maribor (graduated in 2012, thesis: Comparison of open-source CRM tools)
- Graduate level: Management of Information systems, University of Maribor (expected graduation in 2016)
- Sabanci University Erasmus exchange student: Computer science (from September 2014 – June 2015)

Work experience

- **Sabanci University** (research assistant / internship. Responsible for project in collaboration with University staff. Within the scope of the project I was responsible for database creation (both graph and relational), writing Python scripts to mine the data and in the end visualise results using D3.js and JavaScript, June 2015 – September 2015)
- **Arctur d.o.o.** (Assistant to project manager, responsible for team coordination and communication with contractors and customers, project presentations, March 2014 – October 2014)
- **Škofja Loka kindergarten** (Teachers Assistant, responsible for daily activities and preparation of daily workload, September 2008 – September 2009)
- **Adrenaline Park Storž** (Park instructor, responsible for safety of attendants and their education, June 2014 – September 2014)
- **Slorest** (Student, responsible for various tasks around the work environment including preparations and safety protocols inside and outside of the kitchen – catering, September 2012 – September 2014)

Workshops and certifications

- MTA 98-364: Database Fundamentals (certified 2014)
- Oracle: Java fundamentals (certified 2013)
- High Performance Computing workshop, University of Ljubljana 2014
- SAP forum 2013, Brdo pri Kranju
- VMware virtualisation conference, Ljubljana 2014
- Case study competition 2014, University of Maribor
- IDC Big Data and analytics forum, Ljubljana 2014
- IT security conference by Adacta, Ljubljana 2014
- Numerous on-line seminars and workshops (openSAP, openHPI, etc.)
- Numerous excursions to various working environments (SAP Slovenija, IBM Slovenija, Pipistrel, etc.)

Skills

- Programming languages: C#, C++**,** Python, JavaScript
- Web based: HTML, CSS
- Querying languages: SQL**,** Cypher
- Databases: SQL server, MySQL, Neo4j
- Windows and Linux environment
- Additional environments: MS Office, Visual Studio
- Additional skills: public speaking, project management, teamwork

Language skills

- Slovenian (native speaker)
- English (level: C2)
- Serbian/Croatian (advanced knowledge)
